

Nguyễn Ngọc Anh

FRONT END DEVELOPER

Summary

Although I stopped pursuing my education path due to my personal reason, I still have an effort to complete my dream by studying by myself. With my current knowledge about frontend side, I have learned more modern technology such as ReactJS, JavaScript, ... I have conducted some projects such as movie management and got more compliments from my direct manager. I will do the best to become a fullstack engineer in the future.

Project

Booking Movies Website [9/2022 - 11/2022]

Main Developer

An online movie booking website where users can view movie showtimes and movie information. Also news, theaters location and theaters information. Having registration system, login, admin can add, delete, edit movie and showtimes.

Technologies: Tailwind CSS, Ant Design, Axios, Yup, Formik, React (Hook, Router, Redux)
